

# FARUQ ABDUL HAKIM

## Frontend Web and Android Developer

Jember, East Java, Indonesia | HP: 082140989109 | Email: faruqabdulhakim2001@gmail.com

Personal Website: [faruqabdulhakim.dev](https://faruqabdulhakim.dev)

### Summary

---

I received my Bachelor of Information Systems degree from the University of Jember in 2024. I have a high interest in the software development field, especially in **Frontend Web Development** and **Android Development**. As a Frontend Web Developer, I'm familiar with various popular frontend technologies, such as HTML5, CSS3, Modern JavaScript, React.js, Tailwind CSS, etc. One sentence that is ideal to describe me: I love to explore new things.

### Experience

---

#### Freelance Developer

Upwork

- A side hustle job while studying. Some projects I've done: HTML email newsletter/signatures design and development, Python automation, developing frontend from the design, and so on.

#### Mobile Development Cohort

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

- Be a part of the Mobile Development cohort and learn about mobile development on the Android platform.
- Participating in the Android Development team to build an internal application for "Nusantara Beta Studio" company.

#### Programming Laboratory Assistant

University of Jember

- Within this organization, I engage in various activities, including assisting lecturers in delivering classes to students and collaborating on several projects related to software development with the team.
- Build organization profile website and event registration website.

### Education

---

#### University of Jember

2020 - 2024

Bachelor of Information Systems (GPA: 3.82)

### Skills

---

- Frontend Web development using native HTML, CSS, and JavaScript. Familiar with popular frontend libraries/frameworks such as Tailwind CSS, React, and Next.
- Android application development using Kotlin as the programming language with top-notch technologies like Jetpack Compose.
- MVVM and MVC architecture.
- Basic backend development using Express.
- Version control system using Git/GitHub.
